LETTER FROM OUR LEADERSHIP TEAM

Dear global colleagues,

The Global Coalition for Radiotherapy celebrates **4 years since its founding in April 2020**. We connected you, our international community, at the onset of the Covid-19 pandemic with **landmark webinars, beginning a global quest for universal and equitable access to quality radiotherapy**. Through our **growing network of radiotherapy professionals, patient groups, policy and advocacy experts, industry leaders and charities from all sectors** we have continued to grow the scope of this work to **advocate, respond to humanitarian crises, advise global leaders, mentor the upcoming workforce and represent the radiotherapy community at high impact events**. We want to thank you for being a vital part of our vision. This is just the beginning. 4 years will soon be 14, and then 40 as we build forward better and provide patients around the world the cancer care they deserve.

With warm regards,

The GCR Leadership Team

GCR TIMELINE

APR 2020

First GCR Webinar during COVID-19 Pandemic

NOV 2021

GCR develops RT Advocacy Toolkit

MAR 2022

GCR responds to crisis in Ukraine with Radiotherapy Task Force

OCT 2022

GCR initiates the RT Essential Standards in Cancer Plans project

NOV 2023

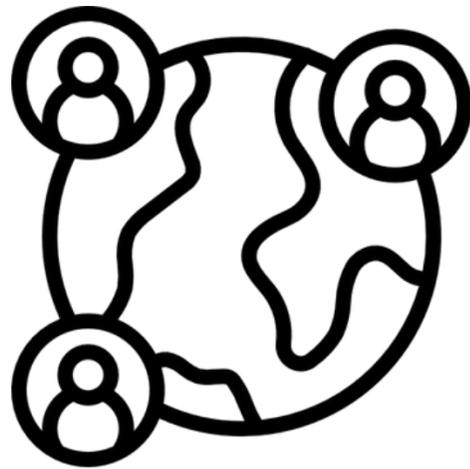

GCR presents at London Global Cancer Week, "Integrating Radiotherapy into Cancer Control Plans"

FEB 2024

GCR collaborates with NIH to establish Essential Standards for the effective cancer care development

OUR STORY

VISION

A world where access to quality radiotherapy is universal and equitable

MISSION

Save 1 million more lives by 2035 through worldwide understanding and proactive implementation of innovations and best practices in radiotherapy

VALUES

Innovation
Agility
Inclusivity
Collaboration
Patient-centricity
Disruption

COLLABORATIVE COMMUNITY

725 GCR Participants

175 RT Task Force
Members

**Digital & On-the-ground
Network**

Linking Stakeholders

*industry leaders, patient groups,
individuals, advocates, charities from
all sectors*

ADVOCACY

- Creating the GCR Advocacy Toolkit
- Writing and supporting publications to advance RT exposure
- Establishing relationships with organizations that advise ministries of health and politicians on health policy

OUR WORK

OUR WORK

RADIOTHERAPY ESSENTIAL STANDARDS

- Creating a framework of key components to be used in a national cancer plan
- GCR hosted a series of webinars to identify key components, create working groups and present findings
- Contributions came in from countries across the globe
- Upcoming: Radiotherapy Supplement to Cancer Control publication
